	3	1-1/2" squares
	2	2" squares

Sewing Instructions for ONE block:

The instructions below can be used to make this block by using a "sew-and-flip" method. Use large squares and rectangles, and sew smaller squares diagonally atop them – press them open and cut away the excess fabric. It's fast and easy – just take care in sewing careful diagonal lines. You can mark the diagonals with a pencil on the reverse side.

NOTE: All triangles sewn in these instructions are made by sewing squares to a rectangle – place the square on top of the rectangle, right sides together. Stitch **DIAGONALLY** across the square. Flip the resulting triangle in place and press flat; trim away excess fabric.

1. Sew a 1-1/2" background square on the top of the boot top rectangle; flip/press/trim. Do this again on the other corner. Next, sew two 1-1/2" squares on the bottom of the boot top rectangle and follow the same sew-and-flip steps.
2. Sew the 1-1/4 x 4-1/2" strip of boot base fabric to the bottom of this unit; flip/press/trim.
3. Sew a 2-1/4" square of boot fabric to the lower left corner of the 4-1/2" x 7" background fabric. Flip/press/trim.
4. Sew a 1-1/2" background square on the right side of the 2" x 6" boot base rectangle; sew a 2" background square on the left side of the rectangle. Sew a 2" background square on the left side of the boot heel. Flip/press/trim all seams."
5. Lay out all of the units prepared so far.
6. Stitch units together – first, sew the larger rectangles together. Next, sew the bottom two pieces together. Finally, sew the top pair to the bottom pair of units. Press. Your finished boot should measure 8-1/2" square, unfinished.
