

The Diced Pineapple is a nine patch block made up of three different blocks.

Simplified Fabric requirements and a different color option is described below.

The diced pineapple nine patch block above is made with a fussy cut center block instead of the quarter square triangle block.

The four triangle blocks, for the top bottom and middle patches, are cut with TriRecs rulers or the template provided with the purchased pattern. The pattern has instructions to cut the triangle blocks, rearrange and resew into the pineapple arrangement.

Two strip sets are needed to cut into 1 ½ inch strips for the four corner patches for each block.
